

## Stage 6 Assessment Booklet addendum

During Covid stay at home arrangements the following temporary arrangements will be put in place. This is in line with instructions that require you to remain at home for seven days if you test positive to Covid or are a home contact and, are unable to obtain appropriate medical supporting statements.

### Year 11 and 12

The school must have been contacted as soon as your seven-day isolation period began. School administration must also be notified as per normal absence procedures (SMS reply, email or phone). As soon as possible (where practical) contact the teacher or subject head teacher and inform them you will not be able to participate in the task due to Covid restrictions (you can leave instructions to do this when you notify the school of your Covid related absence). As soon as possible (when you are well) complete the Illness/Misadventure form – more information to follow.

For any in class examination or assessment where the student would be expected to complete an unsighted task and was unable to attend due to Covid isolation or was not able to engage with the task remotely, the teacher will provide an alternate task and a new due date. For all other assessments and tasks, including research tasks, depth studies and presentations, a new due date will be issued upon the student's return to school.

These provisions will only apply once the Illness/Misadventure form has been completed and submitted– it is available on the PHS website in the Year 11 and 12 Assessment section. For Covid related absences, only Section A needs to be completed.

For all other non-Covid related absences of Year 11 or 12 assessments or tasks missed due to illness or misadventure, then the whole form must be completed including supporting documentation.

For further clarification, please contact me via the school. We thank you for your ongoing patience and support.

Mr Jones – Head Teacher Secondary Studies
